Schedule

cs_major: Major

Major

classes:
Hashtable<Course, Boolean>
name: String

toString()
setTaken()

Course

title: String
credit: int
professor: String
prereqs: ArrayList<Course>

getTitle()
getPrereqs()
cantake(ArrayList<Course> classes)
isprereqs(Course c)
equals(Object o)
toString()

CourseComparator

compare(Course c1, Course c2)

Schedule class depends on the Major class. The Major class depends on the Course class and the CourseComparator class. Schedule has a Major.
Major is composed of Course, because Course(s) make up the Major class.
